

ELEANOR ROBERTS

SOFTWARE DEVELOPER

I am a friendly and passionate software developer, looking for a challenging and innovative career in the exciting world of tech. I have just finished studying at the EyUp Skills coding academy – a sixteen week programming bootcamp run in partnership with the award-winning iO Academy – and am due to graduate in mid-December. My aptitude for technology and computers originally stemmed from my adoration of gaming, and my gentle obsession over logic puzzles and my time with iO Academy has allowed me to fully explore and reignite my enthusiasm.

ABRSM April 2013

GRADE 4 SINGING

Trinity College London June 2013

HOBBIES

Dog walking and puppy cuddles

Board games and video games

Crosswords and logic puzzles

Singing and piano

iO ACADEMY

I have just finished studying software development at iO Academy, which includes the creation of many projects both individually and in a scrum team. I'm personally proud of the ones below, but please see my portfolio for the rest.

PROJECTS

DINOSAUR LISTING APP

Fetching information from a MySQL database containing Dinosaurs and related information, we created an PHP OOP application to view the collection. This included designing an OOP architecture, then utilising Bootstrap UI and SASS to modify the front-end of the application. In particular, I worked on the code implementing a 'More info' page for each dinosaur, including functionality, Bootstrap UI and the related unit testing in PHPUnit for this page.

IO APTITUDE TEST

In this project we began to rebuild the aptitude test application, an existing legacy project, using JavaScript and React, which will be used in the future to test possible applicants for iO Academy. This project utilised a pre-built RESTful API as well as Bootstrap UI.

EDUCATION

BSc Forensic Science

UNIVERSITY OF WEST LONDON

First Class Honours
September 2015 - May 2018

A Levels

HIGH STORRS SCHOOL

September 2010 - July 2012

WORK EXPERIENCE

Risk Management Operations Specialist

CELGENE/BMS, UXBRIDGE, UK May 2019 - October 2020

I dealt with many aspects of the electronic Risk Management System including data entry and analysis, correct documentation, medical terminology and being a point of contact for healthcare professionals. As a team, we organised and implemented multiple retrospective risk assessment outreaches, and I created the first version of a quality check process which was introduced to monitor the quality of outsourced work, and aided in the creation of the related documentation.

Supervisor/Bartender

October 2016 - May 2019

THE LORD NELSON, BRENTFORD, UK

As a supervisor in this pub, I continued to develop my skills in customer service, time management, teamwork and individual skill sets. This role included managing and monitoring inventory, overseeing of bar staff and table service, communicating and cooperating regularly and concisely with the kitchen staff, and helped me greatly build on my ability to fit cohesively into a team.

Bartender/Waitress

June 2015 to September 2016

THE DOCTOR'S ORDERS, SHEFFIELD, UK

Customer Service/Administrator

TWINKL LTD, SHEFFIELD, UK August 2014 to June 2015

Door to Door Telesales / Waitress / Fruit-Harvester / Rainforest Reforestation

TO FUND TRAVELLING August 2013 to July 2014

Bartender/Waitress

April 2012 to August 2013

THE STAGS HEAD, SHEFFIELD, UK
